SUMMARY

Software Engineer (MCA, 2026) with hands-on experience across the full software development lifecycle — designing, developing, testing, debugging and deploying applications in Python, Flask and REST APIs. Skilled at writing clean, maintainable code, participating in code reviews, and troubleshooting production issues, including a Flask/PostgreSQL platform built end-to-end and now in daily use. Comfortable using Figma for wireframes/UI mockups and deploying web apps on Vercel. Clear communication, with a track record of translating requirements into reliable, well-tested solutions.

CORE COMPETENCIES

SDLC: Design, Development, Testing & Deployment | Programming & Core CS Concepts | Debugging & Code Reviews | Problem-Solving & Analytical Thinking | Statistical Analysis | REST API Development | Machine Learning & NLP | Data Analysis & Visualization | UI Wireframing (Figma) | Communication & Presentation Skills | Cross-Functional Collaboration | Requirement Analysis | Git/GitHub

EXPERIENCE

- | | |
|---|--|
| Trainee Software Engineer – Python (AI Products)
<i>Worktual Innovations</i> | Feb 2026 – June 2026
<i>Chennai, TamilNadu</i> |
| <ul style="list-style-type: none">Assisted in the design, development, testing and deployment of AI product features across 3+ cycles, writing clean, maintainable Python code and debugging issues in a fast-paced environment.Cleaned and statistically validated 10K+ data records for accuracy ahead of model training and reporting, improving downstream reporting efficiency by 40%.Built and tested Python & REST API automation for data workflows, debugging pipeline issues and increasing operational efficiency by 60%.Used Claude and other AI-assisted tools to speed up prototyping, debugging and documentation; participated in code reviews and presented progress updates to stakeholders. | |
| Software Development Intern – IQAC
<i>CHRIST (Deemed to be University)</i> | Dec 2025 – Feb 2026
<i>Bangalore, Karnataka</i> |
| <ul style="list-style-type: none">Led end-to-end design, development, testing and deployment of the Worklog Tracker (Flask, PostgreSQL) — live in production at iqacworklog.christuniversity.in.Analysed complex client requirements from IQAC coordinators and translated them into a tailored, rule-based automation solution aligned to accreditation goals.Automated reminder cycles and AQAR-aligned data reporting, improving on-time submission rates and reducing manual entry.Collaborated with a 5-member team via Git/GitHub, participating in code reviews and debugging, iterating from post-deployment feedback. | |

EDUCATION

- | | |
|--|--|
| CHRIST (Deemed to be University)
<i>Master of Computer Applications</i> | Bangalore, Karnataka
July 2024 – April 2026 |
| St Joseph's University
<i>Bachelor of Computer Applications (Data Analytics)</i> | Bangalore, Karnataka
August 2021 – April 2024 |

PROJECTS

- Voxpulse – NLP Sentiment Analytics Platform** | *Figma, React, Firebase, NLP, RoBERTa, TextBlob, Plotly, Vercel* — Wireframed the UI in Figma and built/deployed on Vercel an NLP platform processing 5K+ survey responses; RoBERTa + TextBlob sentiment classification at 88% accuracy with KPI dashboards across 4+ segments.
- Christ X-Change – Verified Marketplace App** | *Figma, Flutter, Firebase, Google Maps* — Designed screen flows in Figma; built and tested a secure student marketplace app with automated verification logic cutting fraudulent listings by 90%, onboarding 100+ users.
- Encrypted Chat System** | *C, Winsock, XOR Encryption* — Designed, built and debugged a two-person chat system with 100% encrypted storage restricted to verified users, applying cryptography and network programming concepts.

LEADERSHIP EXPERIENCE

- Head of Media & Design – Analytica 2023** | *Feb – Dec 2023* — Led an 8-member team for branding, outreach and presentations; delivered 20+ assets on time through strong communication and coordination.
- Event Head – Datagram 4.0** | *Nov 2022* — Owned event strategy, checklists and coordination for a 10+ member team under tight deadlines.

ACHIEVEMENTS AND CERTIFICATIONS

- Letter of Appreciation from the Associate Director, IQAC, CHRIST, for the deployed Worklog Tracker; First Runner-up among 30+ teams, Elixir 2023, St Joseph's University.
- Certifications: 'Big Data Computing' (NPTEL); Cloud Computing and CyberSecurity (Infosys); Cryptography (DataCamp).

TECH STACK

- Languages & Web:** Python, Java, R, SQL, HTML, CSS, JavaScript, React.js, Flask, RESTful APIs, Flutter
- Machine Learning & AI:** Machine Learning, Deep Learning, NLP, Transformers, RoBERTa, RAG, LangChain, Hugging Face, Claude, AI-assisted Development
- Databases & Cloud:** MySQL, PostgreSQL, Firebase, Supabase, Vercel, Cloud Deployment
- Data & Analytics:** Pandas, NumPy, Statistics, Power BI, Tableau, Plotly
- Design & Tools:** Figma, Framer, Git/GitHub, Debugging, Code Review, MS Excel, PowerPoint, Word, Google Workspace
